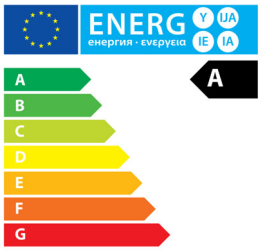
PHILIPS

Bagless vacuum cleaner with PowerCyclone 6
Energy efficiency class A Multi-Purpose

FC9722/19

Highlights

Energy efficiency class A



This vacuum cleaner is engineered to achieve full performance with an energy efficiency class A.

TriActiveMax nozzle

TriActiveMax nozzle with 3-in-1 cleaning actions perfectly seals to the floor to maximize dust pick-up. 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down. 2) It sucks up big bits with its larger opening at the front 3) It sweeps up the dust and dirt closely alongside furniture and walls with its two side brushes.

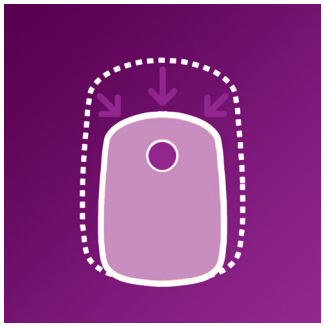
Easy to empty dust bucket

The dust container is perfectly designed for effortless dust disposal. Thanks to its unique shape and smooth surface, dust is collected at one side of the bucket and evenly glides into the dust bin.

Lifetime washable filter

The foam filter can be easily washed under the tap for life-long performance.

Lightweight design



Only 5.5 kg lightweight design ensures great maneuverability.

PowerCyclone 6

The aerodynamic design of PowerCyclone 6 minimizes air resistance and ensures exceptional cleaning performance through 3 highly efficient steps: 1)Air enters fast into the PowerCyclone thanks to the straight and smooth air inlet. 2) The curved airpass quickly accelerates the air upwards in the cyclonic chamber. 3) At the top of the cyclone, the exit blades effectively cut out the dust from the air.
